

Offer your merchants **everything they need to accept online payments**

Protect your ecommerce merchants from the rise in Card Not Present (CNP) fraud with EMV 3-D Secure—help increase conversion rates and boost revenue.

How it works

TSYS InterActiv Payment Gateway provides merchants with a secure, efficient way to accept online payments, for both acquirer and merchant-hosted integration models.

- Increase fraud protection while delivering a seamless cardholder experience with 3-D Secure Server and Merchant Plug In (MPI) capabilities. Your 3-D Secure enrolled merchants can support 3-D Secure authentication protocols version v1 and newer versions of EMV 3-D Secure v2.
- Drive down costs associated with disputed transactions and chargeback handling by enabling EMV 3-D Secure, creating a safe environment while saving you money.

\$120billion

From 2020-2024, retailers are forecast to lose \$120 billion in digital CNP fraud*. Equip your merchants with reliable, simple and fast solutions to help them accept and securely submit ecommerce transactions.

Why you need it

With TSYS InterActiv Payment Gateway, you get a secure, robust ecommerce transaction processing solution, with online real-time authorization and comprehensive acquirer merchant onboarding and management capabilities.

- Satisfy domestic and international payment acceptance needs with multi-currency processing.
- Benefit from a fully certified PSD2 and PCI-DSS compliant solution that seamlessly integrates with a broader array of TSYS issuer and acquirer products and services.
- Cater to the needs of small to large ecommerce merchants with flexible integration options including both acquirer and merchant-hosted checkout pages, supporting payment facilitators using aggregator and payment collector models.
- Optimize the customer experience by offering a comprehensive range of transaction types including purchase, person-to-person (P2P), card-to-account transfer (C2A), and recurring and refund, among others.
- Deliver an outstanding cardholder experience by leveraging readily available desktop and mobile-friendly responsive checkout screens that support multiple languages.

- Ensure a seamless checkout experience and minimize abandonment rates with the option to create an acquirer or merchant-hosted payment page using RESTful APIs.
- Draw on the TSYS InterActiv Merchant Portal to visualise real-time ecommerce transaction management data and smart dashboards.
- Expand your merchants' abilities to accept payments by offering a secure virtual terminal for MOTO payments.

Works well with

TSYS InterActiv Payment Gateway works with our PRIMESM single platform suite of solutions including core PRIME Acquirer for streamlined onboarding and merchant management, PRIME Online for authorization, switching, and routing.

TSYS InterActiv Payment Gateway also works with PRIMESM DCC for dynamic currency conversion, improving cardholder satisfaction by providing the choice for international cardholders to pay in their home currency during checkout.

For issuer-and-acquirer institutions, TSYS InterActiv Payment Gateway works seamlessly with TSYS InterActiv ACS for a single platform ecommerce solution.

To learn how we can help you expand your merchant portfolio and grow your acquiring business, contact us today at primesales@tsys.com.
