ACQUIRING

PRIME in the Cloud brings together the Power of PRIME and 50+ years of processing expertise, in a secure cloud environment.

- Leverage PRIME's unrivalled flexibility to develop your customer-centric services across your issuing or acquiring business, locally or across borders.
- Orchestrate new products and services to bring them to market faster through PRIME's API-driven, digital technology framework.
- Reduce the total cost of ownership (TCO) with PRIME in the Cloud as a shared platform for innovation and global product investment.
- Benefit from cloud automation and TSYS' continuous integration-continuous deployment (CI/CD) design approach for seamless platform upgrades. It brings new roadmap functionality — and supporting compliance — to your business, fast.
- Unlock transformational efficiencies and operational improvements with cloud auto-scaling and auto-healing for reduced consumption, optimal performance and increased availability.

PRIME as a Service in the cloud is a winning combination for any future-forward growth strategy.

Faced with increasing compliance complexity and unrelenting, fast-paced change in digital payments, finance institutions can become overburdened with resource demands and fragmented technology solutions.

With our PRIME in the Cloud services and partner ecosystem, we enable your business acceleration by helping to navigate these changes while empowering you with the tools to reduce costs and drive ahead of your competition.

So power up with our future-proof, agile technology framework geared for cloud efficiencies, digital enablement and speed. Focus your resource efforts on strategic growth and let our compliance experts and service-driven teams do the rest.

Accelerate your business with the Power of PRIME and the flexibility of the cloud.

We believe the cloud has a tremendous role to play in the new world of financial services. By adopting a digital technology framework underpinned by RESTful APIs, cloud-native containerisation and microservices, you'll benefit from operational efficiency gain that positively impact your business. PRIME in the Cloud will enable you to foster innovation at speed to allow you to deliver on the digital customer journeys that you strive to support — and your customers demand — today and tomorrow.

Growth & Income

Future-proof your expansion strategies. Effortlessly right-size and scale up while only paying for what you use. Leverage cloud-automated product upgrades for new innovation and pre-packaged integration to digital players. Spin-up new sandbox environments to test proof of concepts and support fast market launches.

Compliance

Navigate increasing compliance and complexity. Leverage TSYS' scale and enterprise compliance investment to alleviate the burden from your in-house resources to remove cost. Benefit from PRIME flexibility, seamless and regular automated cloud upgrades, integrated Secure DevOps best practice methodology — and our refined cloud-risk-control framework.

Digital Customer-Centricity

Compete or collaborate with fintech and new entrants with digital-first, customer-centric services. Leverage TSYS' cloud-based APIs to support evolving digital payment innovation, securely share data insights and quickly expand with a partner ecosystem to create a marketplace of personalised customer services.

Operational Efficiency

Improve cost-income ratio by mitigating costs. Reduce expenditures for hardware, data storage and infrastructure maintenance. Optimise resource and operational performance with TSYS' PRIME application management expertise and cloud automation for patching and continuous modernisation.

Flexible Models

From multi-product issuing to multi-channel acquiring, PRIME offers a breadth of flexible services. With industry-recognised high parameterisation, which avoids hard coding, a flexible data model and award-winning APIs, PRIME offers low barriers to change.

Our flexibility extends to our range of PRIME as a Service deployment models, where we consider PRIME in the cloud shared platform or single tenant platform processing, or hosting options.

Our PRIME in the Cloud proposition is designed to enable business agility and growth while working with a cloud service provider. We ensure your peace of mind with our cloud-ready processing solutions and global trusted partner footprint with a service history spanning more than 50 years.

ABOUT TSYS

TSYS is a leading global provider of seamless, secure and innovative solutions to payment card issuers — financial institutions and retail companies — in approximately 80 countries worldwide. With nearly 200 clients, and more than 638 million traditional accounts on file, TSYS succeeds by putting people and their needs at the heart of every decision to help them unlock payment possibilities. It's an approach TSYS calls People-Centered Payments®. TSYS is a Global Payments company (NYSE: GPN), tsys.com.

There's a lot more to tell you about PRIME in the Cloud and other PRIME as a Service business models. We'd love to talk to you about how they can help your business. Please visit tsysprime.com or contact primesales@tsys.com
