

Your strategic partner

PRIMESM Managed Testing Services

Minimise user impact and ensure timelines are met without compromising quality.

HOW IT WORKS

TSYS[®] provides you with dedicated subject matter specialists to seamlessly manage all phases of test planning, execution and management.

- Reduce your team's efforts by allowing our trained testing specialists to handle your testing needs.
- Build around your schedule with full or specific testing phases.
- Optimise coverage while reducing the impact to business users during the strategic test planning phases.
- Gain insight from a certified Test Manager with clear governance structures, controls and management of quality risks.

We utilised PRIME Managed Testing Services for test preparation, test analysis, test strategy and scheduling, test design and execution. We were highly satisfied with the expertise of the certified testers, the automated tools supporting them and PCI DSS environment surrounding them. Their ability to execute and manage the process from our end created 50 percent efficiencies for Jyske Bank."

Michael Cid de la Paz,
Head of Card Services
of Jyske Bank

TSYS[®]

PRIME MANAGED TESTING SERVICES

WHY YOU NEED IT

PRIME Managed Testing Services is an independent TSYS service unit, audited to payment card industry data security standards. We offer transparent, process-orientated testing specialists who:

- Communicate effectively, manage reporting and apply best practice
- Adhere to defined documented processes and acceptance criteria
- Provide transparent results using straightforward guidelines
- Track, monitor and share Key Performance Indicators (KPIs) statistics
- Interact with third-party business vendors delivering professional, collaborative results
- Prepare targeted test data and transmission files, managing data migrations and monitoring performance
- Execute smart, custom-built, automation suites and/or manual test cases either onsite or remotely
- Control re-planning, multiple-test execution run plans and fix patch schedules
